Re: Draft Feasibility Study
Old Fire Fighting Training Area
NETC, Newport, Rhode Island
TRC Project No. 01043-0060-00035

Dear Ms. Carlson:

TRC Environmental Corporation (TRC-EC) is pleased to provide three (3) copies of the above referenced draft report relative to the Old Fire Fighting Training Area site at NETC, Newport, Rhode Island. The objective of this report is to identify and evaluate alternatives for mitigating the effects of site-related contamination on public health and the environment. To achieve this objective the report evaluates the necessity of remedial actions for control of impacted soil, ground water, and marine sediment at and near the subject site.

Consistent with submittal of the Draft Management of Migration Feasibility Study for the McAllister Point Landfill, we are forwarding draft copies to yourself and Mr. Wheeler of NETC for review. We will finalize the report and distribute the appropriate copies to regulatory agencies with your verbal authorization. Should you have any questions or comments on the enclosed in the meantime, please contact Steven Farrick or myself at your convenience.

Very Truly Yours
TRC ENVIRONMENTAL CORPORATION

Robert C. Smith, P.E.
Program Manager
